

AMERICAN ACADEMY OF KINESIOLOGY AND PHYSICAL EDUCATION
2009 Annual Report

REPORT OF: Committee on Awards

DATE OF REPORT: July 2009

PREPARED BY: Thomas Templin, Chair

COMMITTEE MEMBERS: Templin, Priscilla Clarkson, Amelia Lee, Brad Hatfield, Mike Ferrara, and Robin Vealey

DESCRIPTION OF ACTIVITIES:

As was the case last year and beyond active solicitation by HK and committee members for nominations via the Academy newsletter, phone, and email, no nominations were received by the due date. Thus, an additional solicitation was presented via email. The committee received one nomination. The committee unanimously voted to present the 2009 Hetherington Award to **Dr. Daniel M. Landers**, Regents' Professor Emeritus of Kinesiology, Arizona State University.

ACTION ITEMS:

In addition to soliciting nominations via the Academy newsletter and email, it might be helpful to distribute a nomination form at the fall meeting and actively address the issue with our membership. As was suggested last year, the chair and committee members did take a more active role in reviewing lists of eligible members and making/soliciting nominations, but this wasn't entirely fruitful.
